

Rosewood Little Dix Bay

Virgin Gorda, British Virgin Islands

Rosewood Little Dix Bay, in Virgin Gorda, British Virgin Islands, is a stunning destination, surrounded by crystal blue seas, lush rolling hills, and a beautiful isolated beach, complemented by the island's spectacular geological formations. OBMI was called to re-design the Resort's open air Welcome & Restaurant Pavilion located on the beach. OBMI's design carefully maintains the pavilion's original signature vaulted rooftops, while recreating the overall internal spatial and functional organization, with up-to-date contemporary Caribbean image. Offering a mix of dishes with a distinctive Caribbean approach, the renovated Pavilion will continue to provide a unique dining experience within the resort.
