

Neil Paterson, RIBA

Associate, Lead Designer / Destination Creation / Miami

Neil brings to his teams and his clients a wealth of international experience in all phases and sectors of architectural design, garnered in his three decades of professional practice. His extensive portfolio of projects ranges from luxury residential and hospitality projects to marina villages and urban mixed-use projects. He is a refined designer with widespread experience in large multi-team project management and technical coordination. With projects around the world, some notable examples include the pioneering master plan for The Wave in Oman, the Royal Mansour, and restoration and expansion of Tazi Palace in Morocco.

Neil's deep understanding of technical and construction project aspects, along with his unwavering focus on quality control, has provided him with enduring relationships with many long-term clients.
